

Conventional Response Indicator

Model No - AC103RI

Aesthetically Pleasing design

Quick and simple to install

Wide viewing angle

Overview:

This device is designed to be used as an indicator for detectors that are located at closed/inaccessible spaces. It contains a LED which lights up when the detector detects fire.

Specification

Electrical Specifications

Operating voltage Nominal 12/24V DC
Minimum 9V DC
Maximum 26V DC

Alarm current 4mA

Indications

Alarm Red LED(Glows Steady)

General Specifications

Operating temperature 0°C to 49°C

Storage temperature 5°C to 40°C

Humidity 0-95% RH (Non-condensing)

Color White

Housing Polycarbonate

Mechanical Specifications

Dimensions(DiaxH) 70x18mm

Weight 24g
