

Addressable Intelligent Optical Smoke Detector

Model No - AU101SD

Overview:

This Addressable Intelligent Optical smoke detector is a networkable instrument that houses smoke sensor for monitoring the level of smoke in its surveillance. Its unique feature is to provide the live smoke level to the control panel for real time monitoring purpose.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	200uA
Alarm current	1mA

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

Complied with:

UL 268-6th Edition
EN 54-Part 7
IS 11360

General Specifications

Smoke sensitivity	0.5 - 3.5 %obs/foot
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate
Compatibility	AU101X Protocol
Contact Clamp	Stainless steel

Mechanical Specifications

Dimensions(DiaxH)	Weight
Without Base 100x34mm	Without Base 70g
With Base 100x46mm	With Base 110g

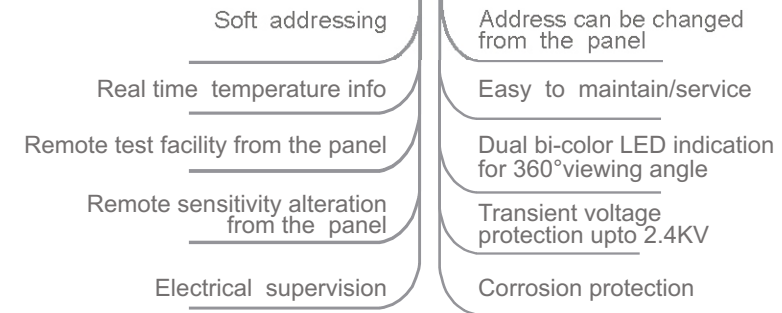

Addressable Intelligent Heat Detector

Model No - AA103HD

Overview:

This Addressable Intelligent heat detector is a networkable instrument that houses thermal sensor for monitoring the level of heat in its surveillance. Its unique feature is to provide the live temperature to the control panel for real time monitoring purpose.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	200uA
Alarm current	1mA

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

Complied with:

UL 521-7th Edition
EN 54-Part 5
IS 2175

General Specifications

Thermal sensitivity	57°C
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate
Compatibility	AU101X Protocol
Contact Clamp	Stainless steel

Mechanical Specifications

Dimensions(DiaxH)	Weight
Without Base 100x30mm	Without Base 66g
With Base 100x42mm	With Base 106g

Addressable Intelligent Multisensor

Model No - AU101MD

Overview:

This Addressable Intelligent Multisensor is a networkable instrument that houses smoke and thermal sensors for monitoring the level of smoke & heat in its surveillance. Its unique feature is to provide the live temperature and smoke level to the control panel for real time monitoring purpose.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	200uA
Alarm current	1mA

Indications

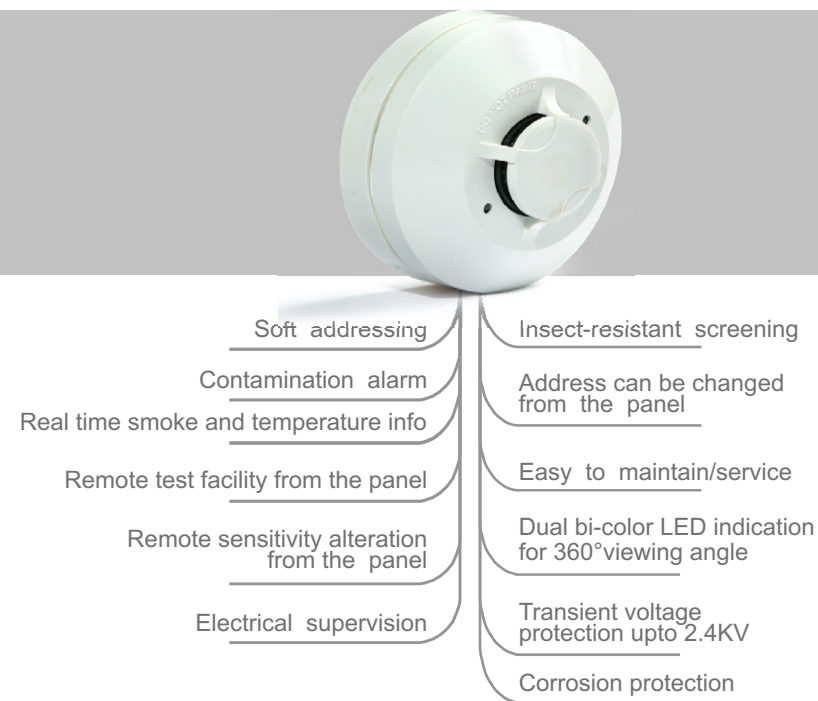

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

Complied with:

UL	268-6th Edition 521-7th Edition
EN	54-Part 7 & 5
IS	11360 & 2175

General Specifications

Smoke sensitivity	0.5 - 3.5 %obs/foot
Thermal sensitivity	57°C
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate
Compatibility	AU101X Protocol
Contact Clamp	Stainless steel

Mechanical Specifications

Dimensions(DiaxH)	Weight
Without Base 100x34mm	Without Base 73g
With Base 100x46mm	With Base 113g

Addressable Intelligent Multisensor with Sounder

Model No - AA105MDS

Overview:

This Addressable Intelligent Multisensor with sounder is a networkable instrument that houses smoke and thermal sensors for monitoring the level of smoke & heat in its surveillance. Its unique feature is to provide the live temperature and smoke level to the control panel for real time monitoring purpose. Built-in sounder for warning and eliminates the need for externally connected sounder.

Specification

Electrical Specifications

Operating voltage 17-27V DC

Quiescent current 200uA

Alarm current 20mA

Indications

Normal Green LED
(Blinks during scan)

Alarm Red LED
(Glows steady)

General Specifications

Smoke sensitivity 0.5 - 3.5 %obs/foot

Thermal sensitivity 57°C

Sound level 80 dB at 1m

Operating temperature 0°C to 49°C

Storage temperature 5°C to 40°C

Humidity 0-95% RH (Non-condensing)

Color White

Housing Polycarbonate

Compatibility AU101X Protocol

Contact Clamp Stainless steel

Soft addressing	Insect-resistant screening
Contamination alarm	Address can be changed from the panel
Real time smoke and temperature info	Easy to maintain/service
Remote test facility from the panel	Dual bi-color LED indication for 360° viewing angle
Remote sensitivity alteration from the panel	Transient voltage protection upto 2.4KV
Electrical supervision	Corrosion protection
Built in sounder	

Mechanical Specifications

Dimensions(DiaxH)

Without Base 100x42mm

With Base 100x54mm

Weight

Without Base 80g

With Base 120g

Addressable Intelligent Duct Smoke Detector

Model No - AU101DSD

Overview:

This Addressable Intelligent Duct Smoke detector is a networkable instrument that houses smoke sensor for monitoring the level of smoke in the airstream of duct work sections of the HVAC air handling system. Its unique feature is to provide the live smoke level to the control panel for real time monitoring purpose.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	200uA
Alarm current	1mA

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

Complied with:

UL 268-6th Edition
EN 54-Part 7
IS 11360

General Specifications

Smoke sensitivity	0.5 - 3.5 %obs/foot
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Compatibility	AU101X Protocol
Detector Contact Clamp	Stainless steel
Housing Material	16 Gauge Cold Rolled sheet
Detector Housing	Polycarbonate
Back Box	Black Matte
Front Cover	Acrylic sheet

Soft addressing	Insect-resistant screening
Contamination alarm	Address can be changed from the panel
Real time smoke info	Easy to maintain/service
Remote test facility from the panel	Dual bi-color LED indication for 360° viewing angle
Remote sensitivity alteration from the panel	Transient voltage protection upto 2.4KV
Electrical supervision	Corrosion protection

Mechanical Specifications

Dimensions(LxBxD)	155x150x150mm
Sampling Tube	205mm
Exhausted Tube	220mm
Weight	
Without Detector	1710g
With Detector	1820g

Analogue Linear Heat Sensing Cable

Model No - AA LHSC 700-001

Overview:

The analogue linear heat sensing cable (LHSC) is designed to provide early detection of fire and overheating in circumstances. LHSC Analogue is a coaxial cable constructed with a copper coated steel central conductor, an inner insulation (dielectric), a tinned copper braid layer and an overall protective sheath. It has a negative temperature coefficient (NTC). Analogue cable is employed in conjunction with an end of line terminating device and a zone monitoring unit or control panel with an appropriate LHSC interface unit.

- Easy to install
- Adjustable alarm set point
- Zones of up to 500m in length
- Mechanical and chemical protection available
- Can detect hot spot
- Recoverable and resettable operation

Specification

Outer Sheath	Red PVC-standard
Outer Diameter	Red PVC-2.8-3.0mm
Minimum operating Temperature	-20°C
Minimum installation Temperature	0°C
Weight 1km on the reel	Red PVC-19kg
Tensile strength	200Newtons

Digital Linear Heat Sensing Cable

Model No - AD LHSC 700-070

Overview:

This LHSC Digital cable comprises of a twisted pair twin core cable. Each core is of tinned copper coated spring steel and has a special heat reactive polymer insulation. The cable has an overall protective jacket / sheath. It is specially formulated such that it plasticizes at a specific temperature.

LHDC Digital cable may be used as a simple switch to operate a relay etc. However in most installations the minimum requirement is that the LHDC circuit is monitored for disconnections by means of EOL device and an appropriate fire alarm channel or address loop interface unit.

Specification

Number of cores	2	Tensile strength	200Newtons
Outer Sheath	Black Nylon-Chemical protection	Alarm Temperature	70°C
Outer Diameter		Maximum Ambient Temperature	45°C
Nylon	4.0mm +/- 0.3mm		
Nylon & stainless steel armour	4.0mm +/- 0.3mm		
Minimum operating Temperature	-40°C		
Minimum installation Temperature	-10°C		
Weight 1km on the reel-standard	21kg		
Weight 500m on the reel-armoured cable	34kg		

Addressable Intelligent Gas Leak Detector

Model No - AA103LPG

- Soft addressing
- Built-in sounder
- LED indicators for mains and alarm
- Easy to install and elegant design

Overview:

This Addressable Gas Leak Detector is designed to detect and alert the leak of flammable gases. These detectors employ a built-in sounder for warning the occupants. The alarming detector with a unique ID communicates to the control panel to alert the exact location of emergency. This aesthetically designed unit accentuates and upgrades safety standards of home by preventing accidents due to leakage of LPG.

Specification

Electrical Specifications

Power supply	24V DC
Power consumption	1 W
Sensitivity	Butane LEL:1.8vd%/HEL(UEL):8.4vd% Propane LEL:2.1vd%/HEL(UEL):8.4vd% Methane LEL:5.0vd%/HEL(UEL):15vd%
Detection distance	LPG-30cm above the ground on the wall Coal gas, Natural gas-30cm below ceiling
Indications	
Warmup mode	Flashing Green LED
Standby mode	Blinking Green LED(During Scan)
Alarm mode	Red LED(Glows Steady)
Output	Relay Contact NO/NC

General Specifications

Sound level	80 dB at 1m
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate

Complied with:

UL 2075

Mechanical Specifications

Dimensions(HxWxD)	130x75X40mm
Weight	220g

Addressable Intelligent Flame Proof Gas Leak Detector

Model No - AA103FLPG

Overview:

This Addressable Flame Proof Gas Leak Detector is designed to detect and alert the leak of flammable gases. The alarming detector with a unique ID communicates to the control panel to alert the exact location of emergency. This device mainly designed for gas bank at hotel, residential complex, Hotel kitchen, industries etc.,

Specification

Electrical Specifications

Power supply	17-27V DC
Power consumption	1W
Sensitivity	Butane LEL:1.8 vd% / HEL(UEL):8.4 vd% Propane LEL:2.1 vd% / HEL(UEL):9.5 vd% Methane LEL:5.0 vd% / HEL(UEL):15 vd%
Detection distance	LPG - 30cm above the ground on the wall Coal gas, Natural gas - 30cm below ceiling

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Wiring	2 Core
Compatibility	AU101X Protocol
Type of protection	Flameproof-Fp
Area classification	Safe area
Apparatus standard	IS-13947/93
Colour	Red

Mechanical Specifications

Dimensions(HxWxD)	155x135x75mm
Weight	3kg(Approx.)
Material	Aluminium Lm6
IP Protection	IP 65
Finish	Anti corrosive epoxy Powder coated
Cable Entry	2 x 3/4" ET
Gasket	Neoprene
Hardware	Stainless Steel(SS-304)

Complied with:

Addressable Manual Call Point

Model No - AA104CP

Overview:

This Addressable Manual Call Point is designed for instant manual actuation of fire alarm system. Advantage of this unit is, it has the large size dimension, clear visibility with the dual LED indication. Strong polycarbonate, clear flip cover is used to avoid the false intervention. No need of the manual reset. It goes with the elite interior.

- Soft addressing
- Remote test facility from the panel
- Blinking LED for visual supervision
- No manual reset is required at MCP
- Flip cover to minimize false intervention
- Easy to install and elegant design
- Electrical Supervision
- Address can be changed from panel
- Transient Protection upto 2.4KV

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	600 μ A
Alarm current	3mA
Indications	
Normal	Green LED (Blinks during scan)
Alarm	Red LED (Flashes)

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	Red
Compatibility	AU101X Protocol
Housing	ABS

Complied with:

UL₃₈
EN 54-Part 11

Mechanical Specifications

Dimensions(HXWXD) 120x120x48mm

Weight

Without Backbox	108g
With Backbox	378g

Addressable Intelligent Weather Proof Manual Call Point

Model No - AA103WCP

Overview:

This addressable Weather Proof Manual Call Point is designed for instant manual actuation of fire alarm system. It trigger manual fire signal, by breaking the glass. Weather Proof Manual Call Point is designed to withstand outdoor and this device is provided with Hammer and Chain.

Specification

Electrical Specifications

Operating voltage 17-27V DC

Quiescent current 200 μ A

Alarm current 400 μ A

General Specifications

Operating temperature 0°C to 49°C

Humidity 0-95% RH (Non-condensing)

Wiring 2 Core

Compatibility AU101X Protocol

Complied with:

Type of protection Weatherproof-Wp

Area classification Safe area

Apparatus standard IS-13947/93

Mechanical Specifications

Material Aluminium Lm6

Weight 1.5kg(Approx.)

IP Protection IP 65

Finish Anti corrosive epoxy powder coated

Cable Entry 2 x 3/4" ET

Gasket Neoprene

Hardware Stainless Steel(SS-304)

Addressable Intelligent Flame Proof Manual Call Point

Model No - AA103FCP

Overview:

This addressable Flame Proof Manual Call Point is designed for instant manual actuation of fire alarm system. It trigger manual fire signal, by breaking the glass. Flame Proof Manual Call Point is specially designed for outdoor, where flammable gas involved and this device is provided with Hammer and Chain.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	200 μ A
Alarm current	400 μ A

General Specifications

Compatibility	AU101X Protocol
Type of protection	Flameproof-Exd
Apparatus standard	IS-2148/81

Mechanical Specifications

Dimensions(HXW)	215X105mm
Material	Aluminium Lm6
Weight	3kg(Approx.)
IP Protection	IP 65
Finish	Anti corrosive epoxy powder coated
Cable Entry	2 x 3/4" ET
Gasket	Neoprene
Hardware	Stainless Steel(SS-304)

Addressable Sounder Beacon

Model No - AA104SBS

Overview:

This unit is designed to use for voice notification and visual(LED Flash) notification. It consists of Addressable digital speaker to play voice broadcast called from the control panel. During emergency, the control panel automatically activates the relevant speaker and allows to play pre-recorded voice notification. The unique ID allows the user to select a particular speaker or group of speakers or all speakers to ON/OFF and volume control according to the need.

This unit can also be used for announcement purpose/play music etc.

Specification

Electrical Specifications

Operating voltage	24V DC
Quiescent current	20mA
Alarm Tone current	400mA(max)
Alarm Voice current	300mA(max)
Sound level	90 dB at 10 feet

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	Red
Compatibility	ALPA2XV1 Protocol
Housing	ABS

Indications

Normal Indicator	Green LED (Glows during PA enable)
Alarm Indicator	White LED (Flashes)

Voice/music broadcasting	Bright flashing LED
ON/OFF control from panel	5 level digital volume control from panel
Electrical supervision	ID can be changed from panel
Soft addressing	Transient Protection upto 2.4KV

Mechanical Specifications

Dimensions(HxWxD)	120x120x43mm
Weight	

Without Backbox	178g	With Backbox	242g
-----------------	------	--------------	------

Addressable Loop Powered Sounder Beacon

Model No - AA104SB

Overview:

This unit is designed to use as an alarm device for fire emergency by audio(beeep) and visual(LED Flash) communication. The unique ID allows the user to configure and activate an alarm which is limited to relevant sounder or a group of sounders. This configuration helps the user to keep the other areas of the building undisturbed during emergency.

No exclusive wiring will be required to connect this sounder in the fire alarm network that comprises detectors, call points etc.

Specification

Electrical Specifications

Operating voltage	17-27V DC
Quiescent current	1mA
Sound level	90 dB at 10 feet
Alarm current	30mA
Indications	
Alarm	White LED (Flashes)
Sound type	Buzzing tone

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	Available in White/Red color.
Compatibility	AU101X Protocol
Housing	Polycarbonate

Mechanical Specifications

Dimensions(HxWxD)	86mmx86mmx25mm
Weight	
Without Backbox	38g
With Backbox	62g

Addressable Android Fire Alarm Control Panel With Voice Alarm-1 Loop

Model No - AN101FACP

Overview:

This Fire alarm control panel is a master unit of fire alarm system. Control panel front-end has a interactive display with touch screen control. Back-end has connectivity for fire detection line and audio notification line. Total system works on 24V DC. Panel has built in 230V to 24V power supply unit. This unit has built in battery charger and provision for SMF battery.

Specification

Electrical Specifications

Primary Power	110V/220V±10% AC, 60/50Hz
Standby Power	24V DC (12V, 7Ah SLA Battery, 2Nos)
Charging Voltage	28 ± 1V
Charging Current	1A (max)
Operating Temperature	0° C to 49° C
Humidity	0-95% RH (Non-condensing)
No Of Zones	32(Max)
No of Loops	1

Signaling line circuits

Loop Current	250 mA/loop
Wiring	Class B, Style 4 Wiring
Loop Resistance	40 ohms

Devices Per Loop

Initiating Devices	127
Loop Resistance	40 ohms
Auxiliary Supply	480 mA @ 24V DC
Fuses	
Supply Fuse	3 A Resettable fuse
Battery Fuse	3 A Resettable fuse
SLC Fuse	500 mA Resettable fuse
Auxiliary Supply Fuse	500 mA Resettable fuse
Display Resolution	800X480 Pixels
Display Size	7"
Compatibility	AU101X/ AUAA2X / ALPA2XV1 / ALAW2XV1 Protocol

Event logs	Android OS
Built-in Voice alarm with pre-recorded messages	Touch screen control
2 Level Password protection	Uncompromising graphical experience
7" Graphic display	Loop card extension facility in 2 & 4 loop panels
Network versions available	High-tended emergency info. in the form of text, voice & floor map
Transient voltage protection upto 2.4KV	Corrosion protection

Finish

Enclosure Dimensions (HxWxD)	460x390X130 mm
Housing Material	16 Gauge Cold Rolled sheet
Back Box	Black Matte
Front Door	Texture Red

Complied with:

UL 864-9th Edition

Addressable Android Fire Alarm Control Panel With Voice Alarm-3 Loop

Model No - AN103FACP

Overview:

This Fire alarm control panel is a master unit of fire alarm system. Control panel front-end has a interactive display with touch screen control. Back-end has connectivity for fire detection line and audio notification line. Total system works on 24V DC. Panel has built in 230V to 24V power supply unit. This unit has built in battery charger and provision for SMF battery.

Specification

Electrical Specifications

Primary Power	110V/220V±10% AC, 60/50Hz
Standby Power	24V DC (12V, 7Ah SLA Battery,2Nos)
Charging Voltage	28 ± 1V
Charging Current	1A (max)
Operating Temperature	0° C to 49° C
Humidity	0-95% RH (Non-condensing)

Network versions available	High-tended emergency info.in the form of text, voice & floor map
Transient voltage protection upto 2.4KV	

Finish

Enclosure Dimensions (HxWxD)	460x390X130 mm
Housing Material	16 Gauge Cold Rolled sheet
Back Box	Black Matte
Front Door	Texture Red

Complied with:

UL 864-9th Edition

Addressable Android Fire Alarm Control Panel With Voice Alarm-5 Loop

Model No - AN105FACP

Overview:

This Fire alarm control panel is a master unit of fire alarm system. Control panel front-end has a interactive display with touch screen control. Back-end has connectivity for fire detection line and audio notification line. Total system works on 24V DC. Panel has built in 230V to 24V power supply unit. This unit has built in battery charger and provision for SMF battery.

Specification

Electrical Specifications

Primary Power	110V/220V±10% AC, 60/50Hz
Standby Power	24V DC (12V, 7Ah SLA Battery,2Nos)

Network versions available	High-tended emergency info. in the form of text, voice & floor map
Transient voltage protection upto 2.4KV	Networkable panel

Finish

Enclosure Dimensions (HxWxD)	460x390X130 mm
Housing Material	16 Gauge Cold Rolled sheet
Back Box	Black Matte
Front Door	Texture Red

Complied with:

UL 864-9th Edition

Addressable Android Fire Alarm Repeater Panel With Voice Alarm

Model No - AN101RP

Overview:

This repeater panel repeats all the fault and fire messages of that of the main control panel and provide all the necessary information available at the control panel to the advantage of the end-user at a remote location. Repeater panel has a interactive display with touch screen control.Total system works on 24V DC. Panel has built in 230V to 24V power supply unit. This unit has built in battery charger and provision for SMF battery.

Specification

Electrical Specifications

Primary Power	110V/220V±10% AC, 60/50Hz
Standby Power	24V DC (12V, 7Ah SLA Battery,2Nos)
Charging Voltage	28 ± 1V
Charging Current	330mA (max)
Operating Temperature	0° C to 49° C
Humidity	0-95% RH (Non-condensing)

Fuses

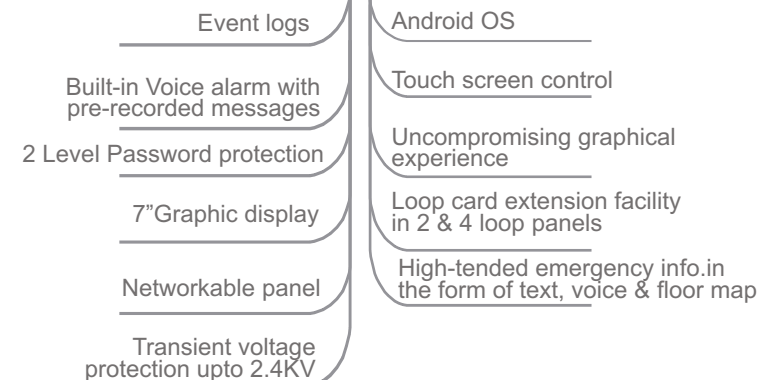

Supply Fuse	3 A Resettable fuse
Battery Fuse	3 A Resettable fuse

Finish

Enclosure Dimensions (HxWxD)	460x390X130 mm
Housing Material	16 Gauge Cold Rolled sheet
Back Box	Black Matte
Front Door	Texture Red
Display Resolution	800X480 Pixels
Display Size	7"
Compatibility	AU101X/ AUAA2X / ALPA2XV1 / ALAW2XV1 Protocol

Complied with:

UL 864-9th Edition

Addressable Intelligent Single Input Module

Model No - AU101SIM

Overview:

This Addressable Intelligent Single input module is designed to meet the supervisory requirements of fire protection systems. This device utilizes monitoring circuits to examine the contact status of the connected water flow switch/pressure switch, building automation and for security applications.

Specification

Electrical Specifications

Operating voltage	17-24V DC
Quiescent current	600 μ A(max)
Alarm current	1 mA(max)
End of Line Resistance	47K Ohms
Maximum IDC Resistance	100 Ohms
Maximum IDC Current	600 μ A

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White/Red(RAL9016)
Compatibility	AU101X Protocol
Housing	Sheet metal Powder coated

Complied with:

UL 864
EN 54-Part 18

Mechanical Specifications

Dimensions(HxWxD)	106x108x38mm
Weight	
Without Backbox	144g
With Backbox	372g

Addressable Intelligent Single Output Module

Model No - AU101SOM

Overview:

This Addressable single output module is an device that utilizes form C dry contact relay circuit for controlling external appliances on the detection of fire emergency by the devices in the network. The output responses of detection system can be configured to this unit.

Specification

Electrical Specifications

Operating voltage	17-24V DC
Quiescent current	600 μ A(max)
Alarm current	18mA(max)
Relay Contact Rating	2A @ 24V DC

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White/Red(RAL9016)
Compatibility	AU101X Protocol
Housing	Sheet metal Powder coated

Complied with:

UL 864
EN 54-Part 18

Mechanical Specifications

Dimensions(HxWxD)	106x108x38mm
Weight	
Without Backbox	144g
With Backbox	372g

Addressable Intelligent Single Input Output Module

Model No - AU101SIOM

Overview:

This Addressable Intelligent Single input/output module is designed to meet the supervisory requirements of fire protection systems. This device utilizes monitoring circuits to examine the contact status of the connected water flow switch/pressure switch, building automation and for security applications and control circuit use a form C dry contact relay circuit for controlling external appliances on the detection of fire emergency by the devices in the network. The output responses of detection system can be configured to this unit

Specification

Electrical Specifications

Operating voltage	17-24V DC
Quiescent current	600 μ A(max)
Alarm current	18mA(max)
End of Line Resistance	47K Ohms
Maximum IDC Resistance	100 Ohms
Maximum IDC Current	600 μ A
Relay Contact Rating	2A @ 24V DC

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White/Red(RAL9016)
Compatibility	AU101X Protocol
Housing	Sheet metal Powder coated

Complied with:

UL 864
EN 54-Part 18

Mechanical Specifications

Dimensions(HxWxD) 106x108x38mm

Weight

Without Backbox 144g With Backbox 372g

Addressable Analogue LHS Cable Interface Unit

Model No - AA101LHSI

Overview:

This Addressable Intelligent analogue LHS(Linear Heat Sensing) cable Interface unit is powered by signaling line circuit. Analogue type LHS cable resistivity changes in proportion to temperature exists in its spectrum, in case of Abnormal high temperature it will assume as fire and goes to alarm state. This unit also monitors breakage of wire using end of line device.

Specification

Electrical Specifications

Operating voltage	17-24V DC
Quiescent current	600 μ A
Alarm current	1 mA(max)
Maximum IDC Resistance	100 Ohms
Maximum IDC Current	600 μ A

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	Red
Housing	Top plastic, Bottom-Mild steel
Compatibility	AU101X Protocol

Mechanical Specifications

Dimensions(HXWXD) 120x120x48mm

Weight

Without Backbox	108g
With Backbox	378g

Indications

Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

Addressable Digital LHS Cable Interface Unit

Model No - AA101DLHSI

Overview:

This Addressable Intelligent Digital LHS (Linear Heat Sensing) cable Interface unit is powered by signaling line circuit. LHS cable mainly used in cable duct and in oil pipe lines. Result of fire makes the cable short circuit at the spot of fire. This unit helps to identify spot of fire based on the length of the cable from this unit to fire spot. This unit also monitors breakage of wire using end of line device.

Specification

Electrical Specifications

Operating voltage	17-24V DC
Quiescent current	600 μ A
Alarm current	1 mA(max)
Indications	
Normal	Green LED (Blinks during scan)
Alarm	Red LED (Glows steady)

General Specifications

Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	Red
Housing	Top-plastic, Bottom-Mild Steel
Compatibility	AU101X Protocol

Mechanical Specifications

Dimensions(HXWXD) 120x120x48mm

Weight

Without Backbox	108g
With Backbox	378g

Addressable Intelligent Short Circuit Isolator

Model No - AA104SCI

Overview:

This Short circuit isolator is designed to prevent the damage to the devices caused during the event of short circuit at sensor signal wire. At the time of short circuit, isolator will disconnect the supply to the devices that are put in connection after the isolator module in the loop. Short circuit isolator modules are placed between groups of sensors to protect the devices against short circuit in the fire alarm signal line circuit/cable.

Specification

Electrical Specifications

Operating voltage 17-27V DC

Quiescent current 1.6mA

Short Circuit leakage Current 3.6mA

Indications

Normal Green LED
(Blinks during scan)

Alarm Red LED
(Glows steady)

General Specifications

Operating temperature 0°C to 49°C

Storage temperature 5°C to 40°C

Humidity 0-95% RH (Non-condensing)

Color White/Red

Compatibility AU101X Protocol

Housing 22 Gauge Sheet metal
Powder coated

Complied with:

UL 864
EN 54-Part 17

Mechanical Specifications

Dimensions(HxWxD) 106x108X38mm

Weight

Without Backbox 144g With Backbox 372g

Addressable Intelligent Short Circuit Isolator

Model No - AA103SCI

Overview:

This Short circuit isolator is designed to prevent the damage to the devices caused during the event of short circuit at sensor signal wire. At the time of short circuit, isolator will disconnect the supply to the devices that are put in connection after the isolator module in the loop. Short circuit isolator modules are placed between groups of sensors to protect the devices against short circuit in the fire alarm signal line circuit/cable.

Specification

Electrical Specifications

Operating voltage 17-27V DC

Quiescent current 1.6mA

Short Circuit leakage Current 3.6mA

Indications

Normal Green LED
(Blinks during scan)

Alarm Red LED
(Glows steady)

General Specifications

Operating temperature 0°C to 49°C

Storage temperature 5°C to 40°C

Humidity 0-95% RH (Non-condensing)

Color White

Compatibility AU101X Protocol

Housing Polycarbonate

Terminals Stainless steel

Complied with:

UL 864
EN 54-Part 17

Mechanical Specifications

Dimensions(DiaxH)	Weight
Without Base 100x30mm	Without Base 62g
With Base 100x42mm	With Base 102g

Wired 2 Clamp Base

Model No- AC2CBASE

Overview:

This unit is designed to fix various type wired sensor heads, which requires 2 main terminals. Round rail guided base facilitates the user to fix or remove the sensor for maintenance purpose. Polycarbonate strong base, SS clamp provides long life.

Specifications

Physical Specifications

Dimensions(Dia x D)	100 x 12 mm
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate
Clamp	2
Compatible Detectors	AU101SD,AA103HD,AU105MD, AA105MDS,AC103SD,AC103HD and AC103MD

Dimensions

Wired 3 Clamp Base

Model No- AC3CBASE

Overview:

This unit is designed to fix various type wired sensor heads, which requires 3 main terminals. Round rail guided base facilitates the user to fix or remove the sensor for maintenance purpose. Polycarbonate strong base, SS clamp provides long life.

Specifications

Physical Specifications

Dimensions(Dia x D)	100 x 12 mm
Operating temperature	0°C to 49°C
Storage temperature	5°C to 40°C
Humidity	0-95% RH (Non-condensing)
Color	White
Housing	Polycarbonate
Clamp	3
Compatible Detectors	AA103SCI, AW103IM and AW103OM
