ADDRESSABLE DIGITAL SPEAKER WITH FLASHER
Model No - ADS103SF

Features :

1. **Compliance :** Designed to meet NBC 2016 for visual alarm systems
2. **Dual Tone Sound:** Generates a distinct and attention-grabbing dual-tone sound for alert notifications. The carefully chosen tone provides a soft alert that avoids creating panic among occupants.
3. **Addressable capability:** The addressable feature of Airlight's Speaker with flasher system enables targeted activation of alarm sounder beacons. In the event of a fire detection, the system can automatically trigger voice alarm accompanied by light beacons.
Complied with
NBC 2016

Overview:
 This unit stands as the advanced replacement in notification technology for sirens/ sounder beacons. At the time of emergency, this unit activates to broadcast pre recorded voice messages from the panel along with high intensity visual indication. The user can also activate a specific speaker/ group of speakers to broadcast voice messages, play music etc. by having its ID/ location description as reference.
